
E.K. Fire Department To Move To New Premises This Week

East Kildonan Fire Department, under Captain King, is expected to move into its new building situated in the municipal yard, between Munroe and Trent on Watt st., this week-end.

The present building, built in 1919, has become quite inadequate to render effective service to the fast-growing municipality.

Council at its meeting Tuesday night gave instructions to the engineer to purchase three chairs and a table for the "fighters".

Councillor Suttie brought smiles to faces of the members when he suggested a fourth chair for a game of bridge.
