

Kildonan Council Approves Removal Of 4 Outdoor Taps

Outdoor taps will be dismantled at four locations in East Kildonan following approval by Council of a recommendation from the engineer. The taps are not being used, according to Mr. Battershill.

They are at Bronx and Henderson, Hazeldell and Henderson, Roberta and Brazier, and Oakview between Brazier and Roch.

Councillor Armstrong said there was a standpipe at Grey and Munroe which was used by only one resident who did not have sewer and water.

He said he believed sewer and water facilities were desired in this case and asked that the party concerned be contacted for arrangements about the installation of these facilities. If they did go in, the standpipe could then be removed.
