

EAST KILDONAN TO RECEIVE 2 GERMAN MACHINE GUNS

East Kildonan will be presented with two German machine guns, by the war trophy department of the federal government. This information was contained in a letter read to the council Monday evening. The guns are on their way and are expected within a day or two.

The Council's memorial hall project will be dropped until next spring in view of financial stringency.

A request from the East Kildonan branch of the Dominion Labor party for information concerning installation of lights at the intersection of Brazier, Roch and Watts sts. was referred to the engineer's department.
