

New Masonic Hall On Melrose Ave. Under Construction

While there is a possibility of the East Kildonan Community Club buying the old Masonic Hall on Bronx ave., construction of a new Masonic Hall at 205 Melrose ave. has already started. A building permit for \$28,000 has been issued.

Builders are DuCharme and Hamilton, who are also working on the Miles Macdonell Collegiate. Architects are Smith and Munn.

The building will be one storey, measuring 57 by 75 feet. Face brick will be used for the front wall on Melrose, the stucco for the other exteriors. Piers will support the hall.

Up to Wednesday, work was at the ground level stage, and even this had been halted by the rain. When completed, the hall will join with the new municipal building and the Imperial Bank in enhancing the appearance and importance of this section of property.

It is understood three lodges will use the hall upon completion.
