## Paper Mill For Elmwood.

A paper mill and card board factory is to be erected and completed this year on the corner of Poplar avenue and Levis street in Elmwood at a cost of \$125,000. A company has been organized, under the name of F. J. Welwood and company, limited, with an authorized capital of \$300,000 to acquire the manufacturing and retail business hitherto carried on by F. J. Welwood, and to extend the same by the immediate erection of a new mill. The site secured by the new company is on the north-east corner of Poplar and Levis, exactly opposite the present factory of F. J. Welwood. The provisional directors intend to build a mill with an initial capacity of fifteen tons daily which can be later increased to twenty tons by the addition of beaters and dryers. All the various kinds of paper used in Winnipeg and the west are now coming from eastern mills, and pay a freight rate of not less than \$12 per ton. Paper coming from the United States is subject to a duty of from 25 to 35 per cent, and it is believed that an opportunity exists in Winnipeg for a paper mill, such as is planned.
