

FAVOR THE SCHEME.

Ratepayers of Kildonan Discuss a Tramway to Bird's Hill

Alderman Hutchings' scheme for a tramway to Bird's Hill, which has been held in abeyance for some time, is again coming to the front, and there is every likelihood of ratepayers of East Kildonan co-operating in promoting the enterprise. At a meeting the other evening the following resolution was unanimously adopted: "That whereas the people of Kildonan have learned that the city of Winnipeg are disposed to build a tramway or electric railway from said city to Bird's Hill, we, the residents and ratepayers of Kildonan are prepared to look upon such an enterprise with favor, and would give any reasonable scheme favorable consideration."
